CONCLUSION

The applicant recognizes that in accordance with M.P.E.P. § 1302.14, the examiner's reasons for allowance need not set forth all of the details as to why the claims are allowed. In the above-referenced application, the applicant does not concede that the examiner's stated reasons for allowance are the only reasons for which the claims are allowable. In particular, the applicant does not concede that all of the identified limitations are necessary to distinguish the prior art of record or to satisfy the requirements of 35 U.S.C. § 112. In addition, the dependent claims are allowable on their own merits, and are allowable on the basis of a sub-combination of the recited features of the dependent claims and their respective base claims.

Furthermore, the limitation added to the independent claims by Examiners Amendment to recite "wherein the markup language corresponds to the extensible markup language (XML)" finds support at least at paragraph [0021] of the original specification. This limitation does not exclude from the scope of the independent claims other markup languages that are not specifically XML but rather includes open standard markup language that correspond to XML at least in one or more of their syntax, operation, and functionality.

If there are any questions regarding these amendments and remarks, the Examiner is encouraged to contact the undersigned at the telephone number provided below. No additional fees are believed to be due, however, the Commissioner is hereby authorized to charge any additional fees that may be due, or credit any overpayment of same, to Deposit Account No. 50-0311, Reference No.: 34874-062/2003P00267US.

Respectfully submitted,
